# Apprenticeships in Wall & Floor Tiling

The Apprenticeship framework in Wall & Floor Tiling involves a combination of working with an employer and attending a specialist training facility. This powerful package means they become trade qualified and gain relevant experience.

**Who is the qualification for?**

This qualification is for those who are looking to become qualified Floor Layers and/or Wall & Floor Tilers.

**They will need to have:**

- Have a good standard of education
- Be good at working with their hands
- Cope with a physically demanding job
- Work both on their own initiative as well as part of a team
- Be able to follow safety instructions
- Have good communication skills, follow advice and instructions from supervisors and managers.

**How will they be trained and what will they be learning?**

They will attend training for one day per week at a specialist training facility, together with practical training and experience with a local employer.

The Apprenticeship will take approximately 18 months to complete

They will be learning all about Floor and Tiling materials and techniques as well as the essential practical and technical skills needed to become efficient, qualified and skilled in Wall & Floor Tiling.

**Apprenticeship Components:**

- NVQ Level 2 Wall & Floor Tiling
- Technical Certificate: Intermediate Construction Award level 2
- Key Skills: Application of Number; Communications
- Employment Rights & Responsibilities (ERR)

**Progression**

Learners can undertake specialist courses to further their knowledge. Alternative Keeping skills up-to-date and improving productivity not only helps the business grow, but also motivates employees.

**Costs and Funding**

Training costs may attract government funding and can sometimes be free. A member of our Business Development Team will meet with the employer to discuss how we can help in the most cost effective way.
